NA43: Imidazolidinyl Urea (Germall® 115)
CAS#: 39236-46-9

Patient Information
Your patch test result indicates that you have a contact allergy to imidazolidinyl urea (Germall® 115). This contact allergy may cause your skin to react when it is exposed to this substance although it may take several days for the symptoms to appear. Typical symptoms include redness, swelling, itching and fluid-filled blisters.

Where is imidazolidinyl urea (Germall® 115) found?
Imidazolidinyl urea (Germall® 115) is an antimicrobial substance used as a preservative in cosmetics, shampoos, deodorants, body lotions, and in some therapeutic topical ointments and creams.

How can you avoid contact with imidazolidinyl urea (Germall® 115)?
Avoid products that list any of the following names in the ingredients:
• Germall® 115
• Imidazolidinyl urea
• Imidurea
• 1,1’-Methylenebis(3-(3-(hydroxymethyl)-2,5-dioxo-4-imidazolidinyl)urea)
• EINECS 254-372-6
• Methanebis(N,N’-(5-ureido-2,4-diketotetrahydroimidazole)-N,N-dimethylol)
• N,N’-Methylenebis(N’-(3-(hydroxymethyl)-2,5-dioximidazolidin-4-y1) urea)
• Urea, N,N’-methylenebis(N’-(1-(hydroxymethyl)-2,5-dioxo-4-imidazolidinyl)-

What are some products that may contain imidazolidinyl urea (Germall® 115)?
• Children’s Products:
  – Baby bath
  – Calming lotion
• Cosmetics:
  – Concealer
  – Eye pen
  – Lash and brow
  – Liquid makeup
  – Mascara
• Deodorants
• Fragrance
